MEMORANDUM FOR: [REDACTED]

C/OS/LOG

THROUGH

: C/SM&FB

SUBJECT

: Request for Logistics Services -
Sign for Duty Office - Office of Security

(based on suggestion)

REFERENCE

: Request dated 24 February 1977

On 23 March 1977 the Fine Arts Commission reconsidered the attached request by the Office of Security to mount the Agency seal and sign on the wall outside the Office of Security Duty Office.

The Commission, with only one dissenting vote, was of the opinion that the request should be denied. The reasons were the strong desire to minimize signs of all kinds in the main corridor in the interest of avoiding visual clutter; the concern that favorable action would establish a precedent that could be cited by the many others who have solicited the Commission for unit signs of many kinds; and the fact that the Commission has under consideration hanging a large painting on the wall just outside the entrance to the Office of Security.

I apologize for having permitted this decision to have dragged on for such a long time.

Remarks:

This request has bounced back again. Milt said that 3" letters do not exist.

Should we:

1. Change it to 4"
2. Change it to 4" and reduce wording to
SECURITY
DUTY OFFICE
3. Deny all as this could lead to
GSA, Central Processing, etc. re-
questing the same.

1/28/77

Does FAC agree with this suggestion, as amended by the 12 January 1977 report by Chief, Physical Security Division?

Surf inch high letters seem too large to me. They would cover a very large wall area to spell out 31 or 32 letters and spaces. I would approve the suggestion for the FAC as amended by Ch. Physical Security Division, if the letters were no more than 3 inches high subject to the review of the division.

TITLE OR SUBJECT OF SUGGESTION

SUGGESTION NO.

Security Command Center Display

77-206

PRESENT METHOD

Currently, a small room number designator approximately six inches square is used to reflect "Duty Office, Office of Security," room 1E26.

SUGGEST

A more readily identifiable sign, to be arranged on the hallway wall outside of room 1E26, to read "Security Command Center" along with the Agency seal. The display would be similar to the "CIA Operations Center" consisting of six inch letters and Agency seal.

ADVANTAGES

The sign would clearly establish the location of the Security Command Center which is the focal point of Agency and national emergencies where high level administrators respond. It would also serve as an immediate recognition for employees in need of assistance. And finally, it would enhance the image and prestige of the Office of Security.
